

1. Stepper Motor
2. Base Chases
3. Proximity Sensor
4. Conveyor belt
5. Servo Motor
6. Bucket
7. Lever
8. Object

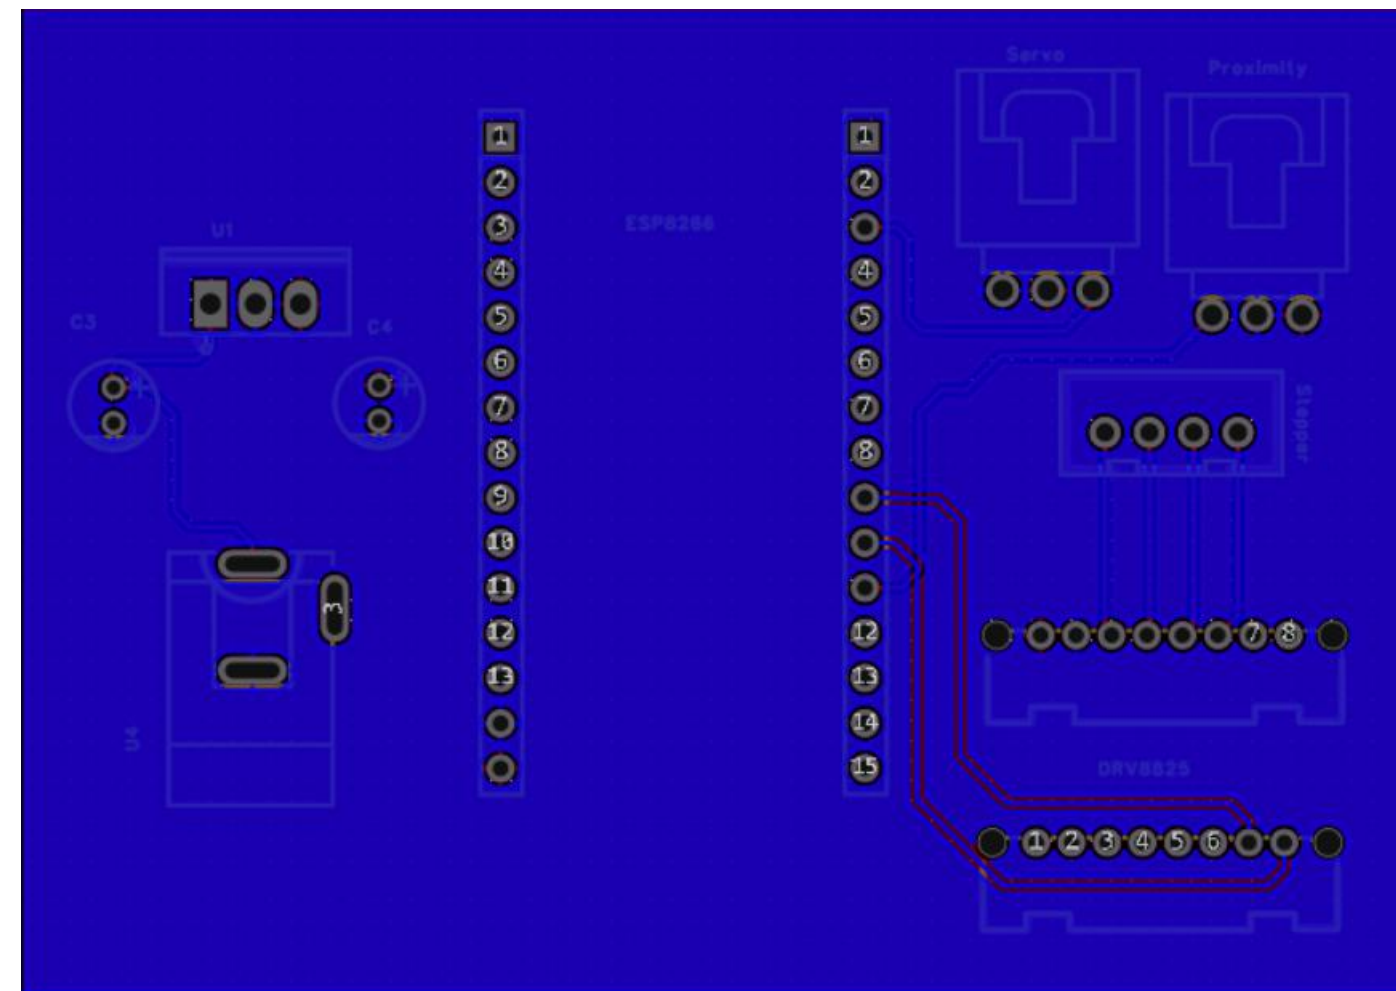

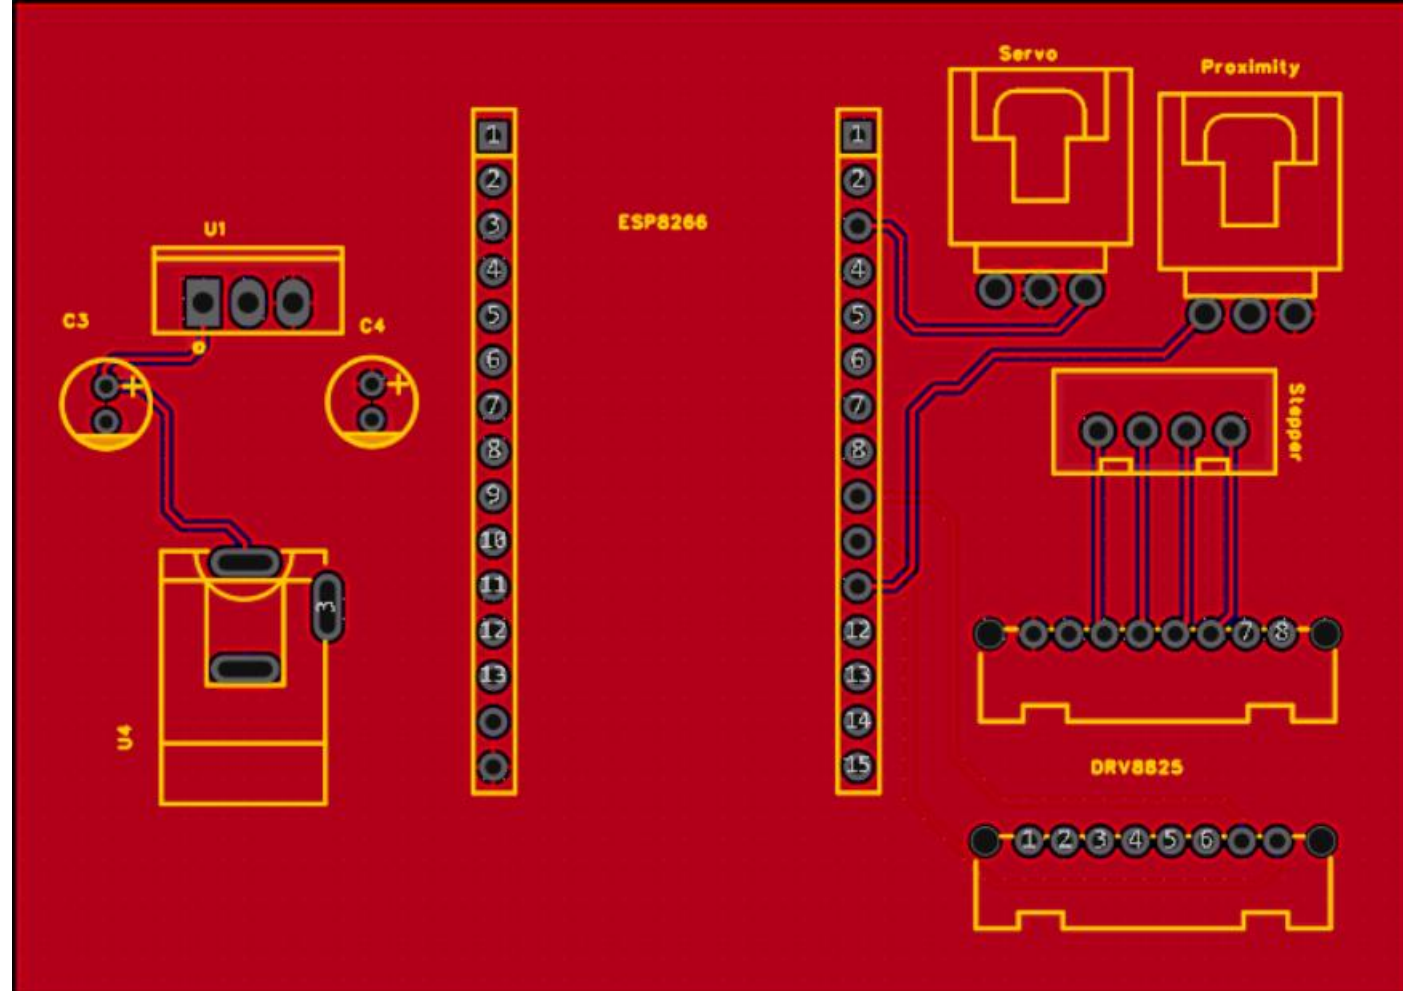

- Component List:
1. Power jack
  2. 7805 Voltage regulator
  3. Capacitor
  4. ESP8266 Microcontroller
  5. Servo Motor
  6. Proximity Sensor
  7. DRV8825
  8. Stepper Motor

Schematic	Schematic1	Update Date	2024-12-06
-----------	------------	-------------	------------

I user 16 pin header in parallel to place ESP8366

But I was unable to find 8 pin Header for DRV8825 so I used some different connector with 2.54mm pitch so that can place 8 pin header in original PCB
